Torrance Memorial Medical Center

Hoffman Health Conference Center

3315 Medical Center Drive, Torrance, CA 90505

Statement of Need: Cardiovascular disease remains the leading cause of death worldwide and recognizing patients at risk is the key to early interventions and decreased morbidity and mortality. Please join us to hear Marc Gillinov, M.D., Thomas Heywood, M.D., Paul Teirstein, M.D. and other nationally renowned leaders in cardiovascular and metabolic diseases provide evidence-based information about new treatment guidelines and advancements in heart failure, cardiometabolic disorders/diabetes, valvular disease and coronary artery disease.

Target Audience: cardiologists, internists, family practitioners, endocrinologists, cardiac surgeons, electrophysiologists, emergency physicians, nurses and other healthcare professionals.

Educational Objectives: Upon completion of this program participants should be able to:

- Identify patients at risk for cardiovascular disease
- Be aware of cultural disparities associated with cardiovascular disease risk, including ethnicity, age, gender & smoking
- Select appropriate diagnostic tools & therapeutic options
- Improve patient care outcomes & quality of life
- Describe ways to prevent cardiovascular disease
